***Examiner's Reason(s) for Allowance***

Claims 1-2, 8-14 are allowed.

The following is an examiner's statement of reasons for allowance: the amendment to claim 1 overcame the prior art of record. The examiner performed an updated search of the amended limitation "the respective end surfaces of said output optical waveguide and said further optical waveguide are offset with respect to a perpendicular to said input-to-output propagation path, and a propagation path of radiation through said at least one optical component is at an angle with respect to said input-to-output propagation path." The updated search provided prior art that is similar to claimed invention however, they do not anticipate the claimed invention nor reasonably teach the invention in an obvious combination. The prior art of Nakanishi et al. (US 6,374,021 B1) teaches an incline from the laser diode 123 to the photodiode 145. However, the receiving photodiode 145 does arrange in the same planar layer since the light is reflected against the wall 144 and upward to photodiode 145 and the Nakanishi art does not teach an optical component arranged there in between. The prior art of Lee et al. (US 5,854,867) teaches an inclining optical path from input to output with at least one optical element (ball lens 25) arrange in between. However, the receiving diode "end surface" is not in the inclining optical path from input-to-output since the optical signal is reflected off the wall 31 to the end surface of 33. The examiner cannot find a motivation to combine the prior art of Lee, Nakanishi, and the prior art made of record in the prosecution since the prior art of Lee and Nakanishi both deflects the optical signal off of a wall and not an end-to-end surface in the incline input-to-output path. Therefore, claims 2, 8-14 are allowable by virtue of dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ERIN D. CHIEM whose telephone number is (571)272-3102. The examiner can normally be reached on Monday - Thursday 9AM - 5PM.
